**FOR IMMEDIATE RELEASE:
DRAFT**

AVO Training Institute and PetersonCAT® Join Forces to Offer Electrical Safety and Hands-On Maintenance Training in Oakland, CA and Surrounding Area.

Dallas, Texas, May 14, 2014 - AVO Training and Peterson CAT®, one of Caterpillar's® flagship Dealers, announced that they will partner to offer training courses at Peterson University located in San Leandro, CA. Courses are already underway and will continue throughout the entire year. These courses will feature both electrical safety and electrical maintenance oriented subject matter.

Peterson University, Peterson's state-of-the-art training facility in San Leandro, is the destination of choice for students all over North America who desire the latest certified training from Caterpillar and other top training providers! Peterson University is a Caterpillar-recognized Regional Dealer Learning Center—training materials, staff, operations, and administration are thoroughly audited by Caterpillar and authorized to provide the same training that Cat provides in its Peoria, IL headquarters. Students choosing Peterson University for training, receive the exact same instruction that Cat provides its own personnel and AVO Training Institute internationally recognized course curriculum.

Students will find a comfortable learning environment at Peterson University both in the classroom and in the equipment labs. The courses offered are as follows:

- Protective Relay Maintenance, Basic
- Protective Relay Maintenance, Advanced
- Electrical Safety for Industrial Facilities
- Electrical Safety for Utilities
- Substation Maintenance I
- Substation Maintenance II
- Cable Splicing and Terminating, Medium-Voltage
- NFPA 70E 2012 Electrical Safety

Other electrical maintenance courses will be added as the year progresses.
