

Raytech USA, Inc. Relocates to Larger Facility

Perkasie, PA (December 2012) – Raytech USA, Inc. recently completed the relocation of its corporate office to Perkasie Pennsylvania which began in July of 2012. The new facility is located in Bucks County PA, approximately one hour north of the Philadelphia International Airport.

For Raytech USA, a manufacturer serving the power distribution industry, the new location means improved client service, additional stock for faster delivery, and room for anticipated growth in the coming years.

Occupying the new 10,000 sq ft. facility, consisting of 4,000 sq. ft. of office space, and a 6,000 sq. ft. service and manufacturing area, Raytech USA can provide greater efficiency in how we serve our clients.

“As we had anticipated, this relocation has improved our internal and external communication, and most importantly our speed in supporting our clients,” says Paul Salvato, National Support Manager.

“We had simply outgrown our previous facility and after several years of location analysis, we were fortunate to find such a perfect location in a fantastic area. It was important to us to limit the impact that relocation would have on our clients and our employees. Our new facility with its enhanced operational efficiencies will help us continue to grow and evolve and to keep pace with the needs of our industry. We will continue to provide exceptional value and superior service that our clients have come to expect.” said Eileen Bryant, Raytech USA Inc. President and CEO.

Our new address is:

**118 South 2nd Street
Perkasie, PA 18944**

The phone numbers and fax numbers for Raytech USA's have been updated for the new location, however, the old numbers will continue to operate.

Phone: (267) 404 2676

Toll Free: 888 484 3779

Fax: (267) 404 2685
