

global provider of test and technology solutions

# Electro Rent Expands with the Opening of a New Inventory Center in New Jersey

***Connecting More Customers with Local Access to Electro Rent's Market Leading Power and***

***Industrial Test Solutions and Expertise***

VAN NUYS, Calif. Electro Rent, a global leader of test and technology solutions and services has announced the establishment of a new inventory and service center in New Jersey - connecting more customers in the four-state area including New York, New Jersey, Connecticut and Pennsylvania with local access to leading Power and Industrial Test and Measurement solutions, services and expertise.

The inventory and service center will support Electro Rent's Test and Measurement and Rush Computer Rentals businesses to respond to growing customer demand and support of local requirements in the four-state area. Officially opening on February 21, 2018, the Electro Rent customer-centric inventory and service center is located in Totowa, New Jersey, a strategic hub to serve local four-state customer requirements.

Electro Rent customers will be able to take advantage of the local access to the latest Test and Measurement solutions and expertise, including a convenient drop-off and pickup location, along with onsite technical support and daily equipment rental options.

"We look forward to expanding our extensive network with a new inventory center in New Jersey to deliver the highest quality of service and support with local access to Test and Measurement solutions for our local customers," says Mike Clark, Chief Executive Officer for Electro Rent Americas.

This new service center located at 2 Center Court, Totowa NJ 07512 will support the local region by inherently improving immediate availability for Test and Measurement equipment and services. Electro Rent offers local inventory service centers in various cities and countries to serve its global customers.
