

**Emerson Network Power to Open Latest Critical Advantage Webcast Series
With Panel Discussion of 'Data Center 2025'**

Data center, telecom industry leaders to discuss findings from global report

COLUMBUS, Ohio [Sept. 30, 2014] – Emerson Network Power, a business of Emerson (NYSE: EMR) and a global leader in maximizing availability, capacity and efficiency of critical infrastructure, today announced plans for its latest Critical Advantage webcast series. The first webcast will feature a panel of industry experts discussing findings from Emerson's recent report, "[Data Center 2025: Exploring the Possibilities](#)," and will air live Oct. 15 at 1 p.m. Eastern/10 a.m. Pacific.

Emerson Network Power's Peter Panfil will be joined by Peter Gross of Bloom Energy, Mark Monroe of DLB Associates and Ben Stewart of Verizon Terremark to discuss the industry's vision for the data center of the future. The panel will examine the results of Emerson's recent survey of more than 800 data center professionals from around the world.

Emerson Network Power's Critical Advantage series brings together leading technology experts to discuss relevant, timely industry issues. This series will include the following webcasts, with additional topics planned.

- October 15, 2014: Data Center 2025: A Panel Discussion on Trends
- December 2014: Pre-Fabricated Data Centers: Are they right for you?
- February 2015: What Actually Causes Downtime: Examining the Data
- June 2015: Evolution of the Edge: Moving Computing Closer to the User
