

NETA's PowerTest 2018 Trade Show Presents Cutting-Edge Technologies, Industry Insights at Electrical Maintenance and Safety Conference

PowerTest 2018, the largest gathering of electrical power systems professionals in the industry, includes a Trade Show featuring exciting insights, innovations, and ideas from technology leaders.

PORTAGE, Mich., Feb. 02, 2018 (GLOBE NEWSWIRE) -- Electrical power systems professionals have a unique opportunity to learn from industry experts and sit in on cutting-edge technical presentations at the PowerTest 2018 Trade Show. Hosted by NETA — the InterNational Electrical Testing Association, the trade show will take place February 27, 2018, during PowerTest 2018 — the premier electrical safety and maintenance conference — scheduled for February 26 - March 2, 2018, in Washington, D.C.

PowerTest attracts the best and brightest in the industry. The technical agenda facilitates the exchange of ideas, helping to shape the future of the electrical power systems industry by involving electrical testing technicians, engineers, and managers from a cross-section of all industries reliant upon large power generation and distribution facilities.

This year's Trade Show features:

- | More than 100 exhibitors, including suppliers and manufacturers displaying state-of-the-art technology
- | Learning opportunities about product innovations and high-demand services
- | Networking with industry leaders and colleagues
- | Enjoy a complimentary, buffet-style lunch and refreshments

During the Trade Show, 10 Corporate Alliance Partners — each a leader in their field — will take to the Spotlight Stage for 15-minute technical presentations on the latest industry insights, technological developments, trends, and best practices.

This year's Spotlight Stage includes:

- | AEMC's Cable Locator Model 6681, presented by AEMC
- | Significant Revisions to 2018 NFPA 70E, presented by AVO Training Institute, Inc.
- | BCS Switchgear's Expanding Inventory in Molded and Insulated Case Breakers, presented by BCS Switchgear, Inc.
- | The latest from Doble Engineering Company
- | Electro Rent LEO Asset Management, presented by Electro Rent
- | Importance of Vacuum Circuit Breaker Contact Pressure, presented by Group CBS, Inc.
- | DLRO100 – Testing Safely and Effectively, presented by Megger
- | New Lightweight Battery-Powered Test Solution for Wiring Checks and more, presented by OMICRON Electronics Corp. USA
- | The Challenges of Partial Discharge Testing, presented by Protec Equipment Resources
- | Methanol in Oil: A New Diagnostic Tool for Determining the Condition of Solid Insulation, presented by WEIDMANN Electrical Technology, Inc.

Registration for the PowerTest Trade Show and Spotlight Stage Presentations is free.

MEET US ON THE POTOMAC

Register for PowerTest 2018 at www.powertest.org. Please call 888.300.6382 (NETA) for additional information. Discounts are available for NETA Accredited Companies, NETA Alliance subscribers, and for attending multiple seminars.

ABOUT NETA

[NETA](http://www.neta.org), the InterNational Electrical Testing Association, is an ANSI Accredited Standards Developing Organization that creates and maintains standards for electrical maintenance and acceptance testing for electrical power equipment and systems, as well as a standard that addresses the certification of electrical testing technicians. NETA is an association of leading electrical testing companies comprised of visionaries committed to advancing the industry standards for power system installation and maintenance to ensure the highest level of reliability and safety.
