**NETA's Book of the Month: Collect a Full Set of Series I and II Handbooks at Discounted Pricing Through July 31st**

***Special pricing on popular NETA Handbooks delivers the best of NETA World Journal and PowerTest content to electrical power systems professionals.***

**Portage, Michigan, July 8, 2016** – NETA, the InterNational Electrical Testing Association, is offering power systems professionals the opportunity to purchase a full set of NETA Handbooks Series II and get a full set of NETA Handbooks Series I for 50 percent off. Members may also choose to purchase a Series II book and get a Series I book at 50 percent off. This limited time offer is available through July 31, 2016.

NETA Handbooks are a collection of over 200 of the best articles published in past issues of the highly respected *NETA World Journal*, as well as the most-well-received technical presentations from PowerTest conferences.

**Series I** is a 14-volume set that includes:

- Arc Flash
- Circuit Breakers
- Insulation Oils
- IR Scanning
- Online Diagnostics
- Protective Relays
- Transformers

**Series II** is a 13-volume set that includes:

- Arc Flash
- Circuit Breakers
- Grounding Systems
- Insulation Oils
- Maintenance
- Online Diagnostics
- Protective Relays
- Safety
- Transformers

NETA Handbooks, which cover a wide variety of industry topics, are excellent training resources and reference tools. Members receive member pricing at \$10 per book for Series II and \$5 per book for Series I. Non-members receive non-member pricing at \$15 per book for Series II and \$7.50 per book for Series I.

Call 888-300-6382 (NETA) to place your order by July 31, 2016 to receive the discount. For more details on the Handbooks, visit [www.netaworld.org](http://www.netaworld.org), click on the Bookstore tab, and select Series I and Series II Handbooks.

### **About NETA**

NETA is an ANSI Accredited standards developing organization that creates and maintains standards on electrical testing for electrical power equipment and systems. NETA is an association of leading electrical testing companies comprised of visionaries committed to advancing the industry standards for power system installation and maintenance to ensure the highest level of reliability and safety.
