**Early Bird Registration for NETA's PowerTest 2017 Conference Opens Sept. 1, 2016**

*The Premier Electrical Maintenance and Safety Training Event – February 27-March 3, 2017*

Portage, Michigan August 23, 2016 — NETA, the InterNational Electrical Testing Association, invites professionals involved in the electrical power systems industry to expand their knowledge and energize their future by joining us at PowerTest 2017, hosted at the Disneyland Hotel in Anaheim, California, on February 27 – March 3, 2017.

The industry's best and brightest will gather and connect with other attendees to share their knowledge and experiences. The PowerTest 2017 technical agenda offers five days of high-powered learning and interactive sessions that facilitate the exchange of ideas, helping to shape the future of the electrical power systems industry by involving electrical testing technicians, engineers, and managers from a cross-section of all industries reliant upon large power generation and distribution facilities.

Electrical safety, protective relays, equipment and reliability, power transformers, battery systems, and vacuum circuit breakers will all be highlighted at PowerTest 2017. Attendees can take part in the discussion by participating in technical presentations, interactive panel sessions, and a symposium lead by a team of experts. The New Product Forum, many networking events, and in-depth seminars also offer educational venues that expand beyond the first two days of the conference.

Additionally, the PowerTest Trade Show on Tuesday afternoon will feature more than 100 top-tier vendors whose mission is to connect with PowerTest attendees and provide real-world solutions to everyday challenges.

**Register for PowerTest 2017**

Early Bird registration for PowerTest 2017 begins September 1, at <http://www.powertest.org>. Please call 888.300.6382 (NETA) for additional information. Discounts are available for NETA Accredited Companies and NETA Alliance subscribers, and for attending multiple seminars. PowerTest 2107 registration or a social pass is required to attend all conference events and networking activities. Additional fees may apply.

**About NETA**

NETA is an ANSI Accredited Standards Developing Organization that creates and maintains standards for electrical maintenance and acceptance testing for electrical power equipment and systems, as well as a standard that addresses the certification of electrical testing technicians. NETA is an association of leading electrical testing companies comprised of visionaries committed to advancing the industry standards for power system installation and maintenance to ensure the highest level of reliability and safety.
