Save the Date for PowerTest 2016 and Join NETA Deep in the Heart of Texas
The Premier Electrical Maintenance and Safety Event – March 14-18, 2016

Portage, Michigan, March 27, 2015 – NETA, the InterNational Electrical Testing Association, invites professionals involved in the electrical power systems industry to save the date for PowerTest 2016, hosted at the Omni Fort Worth Hotel in Fort Worth, Texas, on March 14 – 18, 2016.

Deep in the heart of Texas, the industry's best and brightest will gather and connect with attendees to plug into each other's knowledge and experiences. The PowerTest 2016 technical agenda offers five days of high-powered learning and interactive sessions that facilitate the exchange of ideas, helping to shape the future of the electrical power systems industry by involving electrical testing technicians, engineers, and managers from a cross-section of all industries reliant upon large power generation and distribution facilities.

Electrical safety, reliability, equipment, electrical commissioning, and circuit breakers, will be highlighted at PowerTest 2016. Attendees will have the opportunity to participate in electrically-related technical presentations, interactive panel sessions, and a symposium lead by a team of experts. The New Product Forum, many networking events, and in-depth, post-conference seminars also offer educational venues that expand beyond the first two days of the conference.

Additionally, the PowerTest Trade Show on Tuesday afternoon will feature over 100 top-tier vendors whose mission is to connect with PowerTest attendees and provide real-world solutions to everyday challenges.

PowerTest 2016 Call for Speakers

NETA invites electrical power industry professionals to share their knowledge and expertise at PowerTest 2016. Technical presentations are sought in the following categories: electrical safety, reliability, equipment, electrical commissioning, and circuit breakers. To submit an abstract, [click here](#) or call the NETA office at 888.300.6382 for more information. Abstracts due May 1, 2016.

PowerTest 2016 Call for Sponsors

Sponsorship opportunities for PowerTest 2016 are going fast. NETA's industry partners are encouraged to reserve space as soon as possible. To learn more, and download the sponsorship brochure, please visit www.powertest.org/sponsors.

About NETA

NETA is an ANSI Accredited Standards Developing Organization that creates and maintains standards for electrical maintenance and acceptance testing for electrical power equipment and systems, as well as a standard that addresses the certification of electrical testing technicians. NETA is an association of leading electrical testing companies comprised of visionaries committed to advancing the industry

standards for power system installation and maintenance to ensure the highest level of reliability and safety.
