**NETA Spring Special: ANSI/NETA Standards Available Now at Significant Savings**

**The InterNational Electrical Testing Association (NETA) is offering special pricing on the ANSI/NETA ATS-2013 and the ANSI/NETA MTS-2015: Buy one and get one at 50% off, now through June 30, 2016.**

**PORTAGE, MICHIGAN, June 1, 2016**—[NETA](#), the InterNational Electrical Testing Association, is offering a Spring Special for electrical power system professionals that includes limited-time, cost-saving pricing on the ANSI/NETA ATS, *Standard for Acceptance Testing Specifications, 2013 edition* and the ANSI/NETA MTS, *Standard for Maintenance Testing Specifications, 2015 edition*.

Through June 30, 2016, NETA Alliance Partners and industry professionals can purchase the ANSI/NETA MTS-2015 for the regular price of \$290.00 and get the ANSI/NETA ATS-2015 for 50% off. Both are available in print and PDF formats.

NETA's Spring Special also includes two ANSI/NETA ATS-2013 standards for the price of one.

The ANSI/NETA ATS, *Standard for Acceptance Testing Specifications* was developed to help those responsible for assessing suitability for initial energization of electrical power equipment and systems as well as specifying field tests and inspections that ensure these systems and apparatus perform satisfactorily, which minimizes downtime and maximizes life expectancy.

The ANSI/NETA ATS is used as a guide when specifying and performing the necessary tests to ensure that electrical systems and apparatus not only meet project specifications, but also will perform safely and reliably for years to come.

The ANSI/NETA MTS, *Standard for Maintenance Testing Specifications* specifies field tests and inspections that assess the suitability for continued service and reliability of electrical power equipment and systems. The ANSI/NETA MTS addresses equipment such as switchgear, transformers, cables, switches, circuit breakers, protective relays, rotating machinery, motors, batteries, capacitors and reactors, and more.

To take advantage of NETA's Spring Special offers, contact the NETA office at (888) 300-6382 through June 30, 2016.

**ABOUT NETA**

[NETA](#) is an ANSI Accredited Standards Developing Organization that creates and maintains standards for electrical maintenance and acceptance testing for electrical power equipment and systems, as well as a standard that addresses the certification of electrical testing technicians. NETA is an association of leading electrical testing companies comprised of visionaries committed to advancing the industry standards for power system installation and maintenance to ensure the highest level of reliability and safety.
