

Vacuum Interrupters' CBT-1201 Portable Circuit Breaker Timer Wins ISHN 2015 Readers' Choice Award

June 16, 2015 (Dallas, Texas) – Vacuum Interrupters, Inc.'s CBT-1201 portable circuit breaker (CBT) timer, power supply, and circuit breaker control system has won ISHN magazine's 2015 Readers' Choice Award. The magazine's readers voted on the product to win in the EHS Management Software category.

"We are delighted that the CBT-1201 has been recognized by ISHN's readers as the best choice for EHS software as these readers are experts in the environmental, health, and safety fields," says Finley Ledbetter, CEO and chief scientist of Group CBS. (Vacuum Interrupters is an affiliate company of Group CBS.) "This award validates our commitment to providing the safest and most versatile tools to keep all employees safe."

The CBT-1201 is an inexpensive, accurate timer that comes pre-configured with all circuit breaker control diagrams, allowing for faster, easier hook-up and results. The unit includes a heavy-duty circuit breaker timing test set, power supply, and switching control in one easy-to-use tool. This rugged field-portable unit operates and interacts with all types of circuit breakers, capturing and storing trip, close, and bounce times all in milliseconds. It is a versatile tool that can be used on the go to confirm proper breaker speed and clearing times as part of a maintenance program or arc-flash validation study.

Vacuum Interrupters, Inc. previously won Occupational Health & Safety (OH&S) magazine's 2014 New Product of the Year Award in the Safety Monitoring Device category.
